

Andrew DeLapo

✉ delapo@math.harvard.edu  adelapo.github.io

Academic Positions

Harvard University *Preceptor in Mathematics*
University of Connecticut *Graduate Assistant*

July 2026 - Present
Fall 2021 - Spring 2026

Education

University of Connecticut *Mathematics PhD*

Fall 2021 - Spring 2026

- **Dissertation:** Computability Theory and Countable Second-Countable Spaces
- **Advisors:** Damir Dzhafarov and Reed Solomon

University of California, Berkeley *Mathematics BA*

Fall 2016 - Spring 2020

- **Honors Thesis:** Bernoulli Randomness and Bernoulli Normality
- **Advisor:** Theodore Slaman
- Minor in Computer Science

Research Interests

Mathematical logic, computability theory, reverse mathematics, instance-solution problems, effective topology, computable structure theory, algorithmic randomness

Awards

Louis J. DeLuca Award for Excellence in Teaching
Mathematics Department, University of Connecticut

April 2025

Summer Disseration Fellowship
Graduate School, University of Connecticut

Summer 2025

Math Teaching Innovation Fellowship
Mathematics Department, University of Connecticut

Fall 2024 - Spring 2025

Connie Strange Graduate Community Award
Mathematics Department, University of Connecticut

April 2024

Summer Research Fellowship
Mathematics Department, University of Connecticut

Summer 2023

Publications

Computability of Separation Axioms in Countable Second Countable Spaces

July 2025

Teaching

Instructor of Record, EMITT Scholar
University of Connecticut

Storrs, CT

- **Spring 2026:** Math 1060Q: Precalculus (2 sections, ~30 students each)
- **Fall 2025:** Math 1060Q: Precalculus (1 section, 19 students)

Instructor of Record, Math Teaching Innovation Fellow

Storrs, CT

University of Connecticut

- **Spring 2025:** Math 2110Q: Multivariable Calculus (1 section, 32 students)
- **Fall 2024:** Math 2110Q: Multivariable Calculus (1 section, 32 students)

Instructor of Record

Storrs, CT

University of Connecticut

- **Spring 2024:** Math 1071Q: Calculus for Business and Economics (2 sections, ~36 students each)

Teaching Assistant

Storrs, CT

University of Connecticut

- **Summer 2025:** Math 1132Q: Calculus II (online)
- **Summer 2024:** Math 1132Q: Calculus II (online)
- **Fall 2023:** Math 1132Q: Calculus II (2 sections, ~40 students each)
- **Spring 2023:** Math 1132Q: Calculus II (2 sections, ~31 students each)
- **Fall 2022:** Math 2110Q: Multivariable Calculus (2 sections, ~36 students each)
- **Summer 2022:** Math 1131Q: Calculus I (online)
- **Spring 2022:** Math 1131Q: Calculus I (2 sections, ~38 students each)
- **Fall 2021:** Math 1131Q: Calculus I (2 sections, ~38 students each)

Conference Invitations

South Eastern Logic Symposium (SEALS)

February 2026

University of Florida

Gainesville, FL

Presentation Title: Computable Categoricity for CSC Spaces

New England Recursion and Definability Seminar (NERDS) 27.0

October 2025

University of Connecticut

Storrs, CT

Presentation Title: Computable Categoricity for CSC Spaces

“Reverse Mathematics: New Paradigms” Summer School and Workshop

July - August 2025

Erwin Schrödinger Institute of Mathematics and Physics

Vienna, Austria

Contributed Talk: Finding Discrete Subspaces of Hausdorff CSC Spaces

North American Annual Meeting of the Association for Symbolic Logic

May 2025

New Mexico State University

Las Cruces, NM

Presentation Title: Computability and Countable Second-Countable Spaces

Contributed Talks

Rutgers Mathematics End of Year Conference (RUMEY)

May 2026

Rutgers University

New Brunswick, NJ

Presentation Title: Equity-Minded Teaching for Graduate Student Instructors

Graduate Research Forum

January 2025

University of Connecticut

Storrs, CT

Presentation Title: Computable Categoricity and CSC Spaces

North American Annual Meeting of the Association for Symbolic Logic

May 2024

Iowa State University

Ames, IA

Presentation Title: Index Sets of CSC Spaces

Intl. Conference on Computability, Complexity, and Randomness

March 2024

Nagoya University

Nagoya, Japan

Presentation Title: Index Sets of CSC Spaces

AMS New England Graduate Student Conference*Brown University**April 2022**Providence, RI*

Presentation Title: Bernoulli Randomness and Bernoulli Normality

Conferences Attended

AMS Special Session on Computable Mathematics*Joint Mathematics Meetings**January 2024**San Francisco, CA***Computability and Combinatorics Summer School and Conference***UConn Hartford**May 2023**Hartford, CT***IMS Graduate Summer School in Logic***National University of Singapore**July 2022**Singapore***Seminar Talks**

SIGMA Seminar*University of Connecticut**February 2026**Storrs, CT*

Presentation Title: Counting Quantifiers in Definitions from Point-Set Topology

Connecticut Logic Seminar*University of Connecticut**December 2025**Storrs, CT*

Presentation Title: Complexities of Homeomorphisms between CSC Spaces

UConn Math Teaching Workshop*University of Connecticut**November 2025**Storrs, CT*

Presentation Title: Equity-Minded Pedagogy

UConn Math Club*University of Connecticut**April 2025**Storrs, CT*

Presentation Title: Several Recipes for Pi

Logic Seminar*University of Leeds**March 2025**Leeds, United Kingdom*

Presentation Title: Index Sets and Computable Categoricity of CSC Spaces

SIGMA Seminar*University of Connecticut**March 2025**Storrs, CT*Presentation Title: The π Talk: A SIGMA Monologue of Circle Ratio Fun Facts**Online Logic Seminar***Southern Illinois University**February 2025**Online*

Presentation Title: Index Sets and Computable Categoricity of CSC Spaces

SIGMA Seminar*University of Connecticut**September 2024**Storrs, CT*

Presentation Title: Computing Discrete Subspaces of Hausdorff Spaces

Connecticut Logic Seminar*University of Connecticut**February 2022**Storrs, CT*

Presentation Title: Bernoulli Randomness and Bernoulli Normality

Mathematics Undergraduate Student Association*University of California, Berkeley**November 2021**Berkeley, CA*

Presentation Title: An Introduction to the Axiom of Choice

Outreach, Service, and Mentorship

SIGMA Seminar Organizer*University of Connecticut**Fall 2024 - Spring 2026**Storrs, CT*

SIGMA is a weekly seminar for graduate students in the Mathematics Department at UConn. Talks are usually given by graduate students and are intended for a first- and second-year graduate student audience.

Teaching Assistant Mentor*University of Connecticut**Fall 2023 - Spring 2025**Storrs, CT*

Mentored two first-year mathematics graduate students in their roles as teaching assistants.

MATHCOUNTS Volunteer*University of Connecticut**February 2025 and 2026**Storrs, CT*

Helped set up, grade, and clean up for the MATHCOUNTS Eastern Chapter competition at the University of Connecticut. The MATHCOUNTS competition is an event for local middle school students to solve competition-level mathematics problems.

Speaker at the Mathematics Continued Conference*University of Connecticut**March 2024**Storrs, CT*

The Mathematics Continued Conference features talks for undergraduate students who are interested in continuing to study mathematics after graduating. My presentation introduced computability theory and the Turing degrees.

Directed Reading Program Mentor*University of Connecticut**Fall 2023**Storrs, CT*

Participated in the Directed Reading Program in the UConn Mathematics department. Mentored an undergraduate student as we read through a textbook in computability theory.

President of UConn AMS Graduate Student Chapter*University of Connecticut**Fall 2022 - Spring 2024**Storrs, CT*

Organized social and professional development activities for graduate students in the Mathematics Department.

Secretary of UConn AMS Graduate Student Chapter*University of Connecticut**Fall 2021 - Spring 2022**Storrs, CT*

Organized social and professional development activities for graduate students in the Mathematics Department.
